

FitBuddy AI — Idea Prioritization Matrix

Phase 1 • Brainstorming & Ideation

Prioritization approach

- The following grouping uses the documented project objectives and existing implementation as the basis. It is a scope organization, not a user-study ranking.

Core scope

Priority group	Items
Core / must be demonstrated	Profile onboarding; weekly plan generation; SQLite persistence; feedback capture; plan refinement; local demo mode
Supporting / should be demonstrated	Coach dashboard; JSON REST APIs; health check; Swagger/OpenAPI docs; responsive interface
Optional / extension	Live Gemini generation; richer future dashboard features; additional refinement rules
